## Road Biking in Muskoka - Road Kit

Muskoka is the heartland of rolling hills, sparkling lakes and long stretches of trees, trees and more trees. Road bike rides can easily cover 100 or even 200km across Canadian Shield landscape. Although rides in Muskoka can be some of the most rewarding you may experience you should also be prepared for uneven or even broken paved shoulders or even no paved shoulders in some areas. This is why we suggest you bring a road bike kit with you. From every day things like water and power bars to maybe a few things that you may not have thought of like change for a pay phone (yes we still have areas that do not get cell phone coverage in muskoka). Being repaired can turn the disaster of a blown tire into a still enjoyable ride.

### Road Biking Events

- [Spin the Lakes](#) - Spring
